

Klimabonus subsidies for the insulation of external walls

Basic requirements

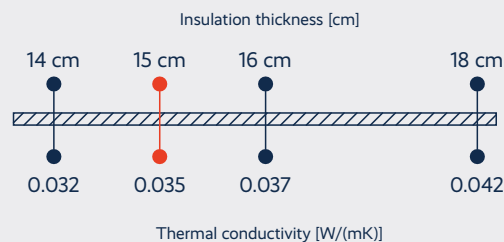

Discover the list of craftsmen certified by Klima-Agence: klima-agence.lu/en/certified-craftsmen

Ask for a quote from a specialist company. Below you will find a summary of the requirements that your contractor must meet in its offer to ensure you are eligible for Klimabonus state subsidies.

Minimum insulation thickness: 15 cm
if its thermal conductivity is 0.035 W/(mK)

The minimum insulation thickness depends on the thermal conductivity of the material and may therefore vary as follows:

Requirements related to the choice of insulation material

Fossil-based insulation material

- The environmental index I_{eco12} is less than 50 UI6/m² (except for the insulation of building elements in contact with the ground)
- Where a request for an “Agreement in Principle” was submitted since 01/01/2024, the fossil-based insulation must be made from at least 50% recycled materials.

Mineral insulation material

- It must be made of 100% mineral materials (including plaster)
- The environmental index I_{eco12} is 23.7 UI6/m² at most
- The mineral insulation is **fixed mainly** in a removable way (with the exception of the plaster).

Ecological insulation material

- It must be made of 100% renewable materials
- The environmental index I_{eco12} is 23.7 UI6/m² at most
- The ecological insulation is **fixed solely** in a removable way (with the exception of the plaster).

Additional requirements

! Discover the list of Klima-Agence certified advisors: klima-agence.lu/en/certified-advisors

Before the renovation work can be carried out, the Environmental Agency must give its "Agreement in principle"

- on the basis of energy-efficiency recommendations by a certified energy advisor, or
- for a single construction element, based on support from a certified energy advisor or an approved craftsman.

VAT rate of 3%

For all the prerequisites, please visit guichet.lu using this QR code.

Additional bonus to Klimabonus subsidies

For renovation work, you are charged a greatly reduced VAT rate of 3% instead of the usual 17%, up to a total tax reduction amount of €50,000. The contractor carrying out the work applies the extremely reduced rate directly to construction or renovation work.

The residential building must be older than 10 years.

📞 If you have any questions, please contact the Klima-Agence hotline at 8002 11 90 from 08:00 to 12:00 and from 13:00 to 17:00.
