

Step by step Guide

Pre-financing a photovoltaic installation

01

Customer

- Request several offers from companies.

Installers must be listed as installers approved for the photovoltaic pre-financing procedure of the Ministry of the Economy (list available on guchet.lu).

02

Installer

- Prepares an offer for the customer.

The down payments must not exceed 30% of the final price including VAT as projected in the signed offer (deposits correspond to all payments made prior to the final invoice).

03

Customer

- Evaluates the offers from the installers.
- Signs the offer.

The offer must be signed by 31 December 2029. The customer confirms their intention to benefit from the pre-financing scheme by signing the mandate provided by the Ministry of the Economy.

04

Installer

- Prepares the connection agreement request with the grid operator.

05

Customer

- Signs the contract with the grid operator.
- Chooses the self-consumption mode/enters into the corresponding contract with an electricity supplier.

The customer must opt for self consumption.

06

Installer

- Installs the photovoltaic installation.
- Completes the end-of-work notification and informs the grid operator.
- Issues the final invoice, deducting any down payments and the amount of the subsidy.

07

Customer

- Pays the final invoice.

08

Installer

Apply for reimbursement of the subsidy from the Ministry of Economy.
The request must be submitted by 31 December 2031.

09

Customer and installer

- Receive the subsidy approval letter.
